April 8, 1970

COSDEN OIL & CHEMICAL COMPANY

M S D - Cook County

Docket No. S, B 69-99

**Henry H. Caldwell, Chief
Northern Div., Air-Water Pollution Control
Office of the Attorney General
Suite 2200, 188 West Randolph Street
Chicago, Illinois 60601**

Dear Sir:

At the April 1, 1970 meeting of the Sanitary Water Board, the Cosden Oil & Chemical Co. case was brought up for discussion. It was voted to defer action on this case and to notify the Attorney General of this decision.

The violation concerned the inability of Cosden to meet the Sanitary Water Board regulations SWB-15 on September 30, 1969, even though reports indicated they were in compliance as of December 12, 1969.

On January 20, 1970, the Board authorized deletion of Cosden from the list of suits if it were found that the company was in compliance. The reports emanating from the Metropolitan Sanitary District have cast some doubt on the extent of compliance and, therefore, the Board made this decision to defer action until more information is available.

Accordingly, will you please withhold any action toward filing of a suit in this case.

Very truly yours,

C. W. Klassen
Technical Secretary
